

Volleyball (Boys)

CCA Description

Volleyball is a 9-year-old sports CCA started in 2012. It is a team sport in which two teams of six players are separated by a net. Each team tries to score points by grounding a ball on the other team's court under organized rules. We seek to develop all our CCA members holistically and maximize their potential through learning and acquiring of relevant physical and soft skills. Our players are enthusiastic and always strive for the best in the Volleyball competitions. Led by motivated and dedicated teachers and coach, we were proud to celebrate our first achievement in 2014. Since then, the boys have been bringing glory to our school in the West Zone and Nationals Volleyball Championships. We are always proud to see our players displaying great tenacity, discipline and teamwork to overcome obstacles and grow together as a team.
